CS460 Fall 2021
Name: Amanda Kwong
Student ID: 01831653
Due Date: 09/13/2021 https://www.overleaf.com/project/6138e66253baffcd0f0a3b40

Assignment 1: Intro

Part 1 (100 points): Describe your favorite WebGL demo.

My favorite demo is this WebGL site of floating jellyfish, "Chrysaora" (`https://akirodic.com/p/jellyfish/`). The author (Aleksander Rodic) shows a sea of pink floating jellyfish. The number, size, and other parameters can be customized in the panel on the upper left corner of the screen. They float on their own, but you can drag them around with your mouse to view them from a different angle.
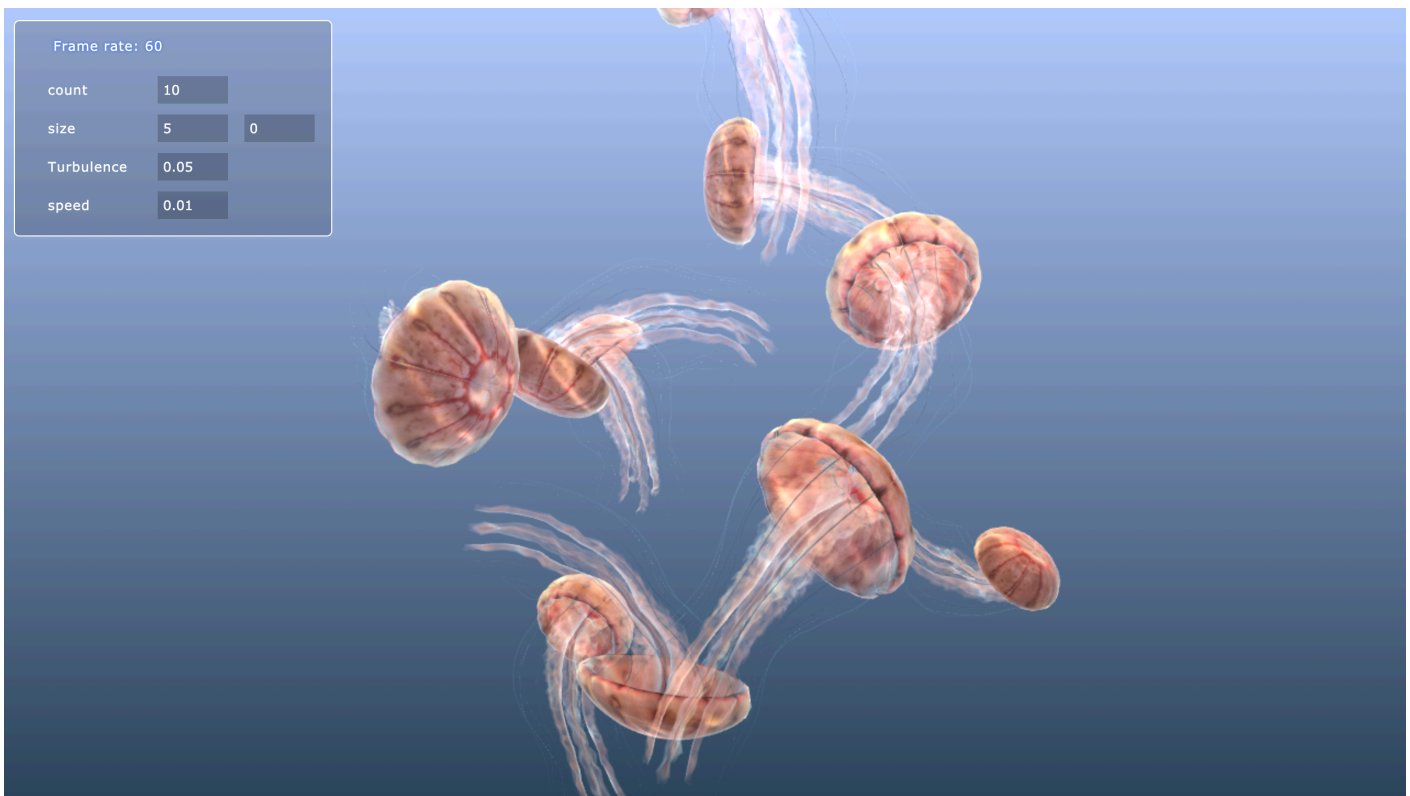

Technologies used:

- HTML/CSS/JavaScript
- Three.js
- JSON

Bonus (33 points): If possible, try to host the project as your own Github repository and make it accessible via Github pages. Please make sure to credit the original authors. Then, link the repository here: `https://amandakwong898.github.io/`
